The Annual Shipwrights' Lectures are generously sponsored by **Pendennis Shipyard** and are free to attend.

The aim of the Shipwrights' Lectures programme is to inspire and motivate young people employed in the UK's £3 billion super yacht, boat design and boat building industry.

The Lectures Team is also aiming to continue to reach out to school and college pupils who might be unaware of not only the many training opportunities and variety of study options on offer, but also the huge range of potential career paths that are available within the maritime sector. These students together with School Careers Advisors, College Tutors and Apprentice Managers are very much encouraged and welcome to attend.

Work on finalising the 2024 Lectures programme is already well underway and further details will be published over the next few months
